PROFILE

I'm a frontend developer with over 5 years of professional experience, mainly specialising on JavaScript, React, and its ecosystem.

In addition to my technical experience, I have strong people skills and a mentoring background, having guided junior developers and ensured their professional growth.

LOCATION

Currently based in Limassol, Cyprus; ready to relocate

WORK EXPERIENCE

SENIOR FRONTEND DEVELOPER — 2023 – 2023

CTERA: Cloud storage solutions

I led migration of a legacy project to React:

- Delivered an initial implementation of the project, including layout, API, routing, etc.
- Mentored less experienced team members helping them contribute to the project

LEAD FRONTEND DEVELOPER — 2022 – 2023

Homaze: Home services platform

In this role, I led a total revamp of app's styling:

- Created a mobile version of the app
- Collaborated with the UX team to create a consistent look of the project
- Increased development speed by formalising a single approach to CSS

FRONTEND DEVELOPER — 2021 – 2022

ANNA Money: Banking and accounting

Besides working on a variety of technical tasks, my biggest accomplishment in this role was improving my team's workflow:

- Updated the team's kanban board, increasing visibility of the current workload
- Regularly facilitated and led team meetings, such as dailies and retros

FRONTEND DEVELOPER — 2019 – 2021

CFT: Payment technologies

- Mentored junior teammates, guiding them to become self-sufficient developers
- With my team, created and maintained 4 large projects
- Reduced the loading time of our main project by 3 times

FRONTEND DEVELOPER — 2017 – 2019

Pushwoosh: Marketing & engaging solutions

- Increased blog visits by 15% by creating description cards
- Created new components for internal UI-library
- Fixed numerous layout & css bugs

TECHNICAL SKILLS

- General: JavaScript, TypeScript, HTML, CSS, React, Next.js
- Store: Redux, Redux-Saga, Mobx, Context API
- API: fetch, promises, async/await, tanstack-query, WebSocket, server-sent events
- UI & styling: Material-UI, AntD, CSS-in-JS, SCSS, CSS modules
